NEARLY TWO THOUSAND PERISH IN OHIO AND INDIANA FLOODS

APPALLING DISASTER AT DAYTON OHIO

Thousands are Victims of Rushing Waters three Miles Wide

The Property Loss Will Exceed One Hundred Million Dollars It Is Estimated

BULLETIN

Special to Dispatch:
Chicago, March 26, (9:25 A. M.)—An unverified report says that 5,000 persons perished in the flood of Dayton, Ohio.
The dead at Piqua, Ohio are 500.
The dead at Peru, Indiana, are estimated at 200.
Delaware, Ohio, has a death list of 75.
Hundreds of thousands of people are homeless and destitute.

LATER REPORT NOT SO TERRIBLE

Special to Dispatch:
Chicago, March 26.—Today's report from the flooded sections of Ohio and Indiana somewhat reduce the first estimates of dead. Dayton's casualty list now placed at five hundred to one thousand, with total loss of life in Ohio probably fifteen hundred. Fatalities at Peru, Indiana, first placed at five hundred, now reduced to sixty, total in state not exceeding one hundred. Property damage will aggregate over one hundred millions.

Chicago, March 26.—Reports concerning the appalling nature of the floods in Ohio and Indiana, which in most instances it was impossible to verify, were received from widely scattered sources. The most serious of these were:

An unconfirmed report from Springfield, O., that 5,000 lives had been lost at Dayton and 500 at Piqua.

The mayor of Peru, Ind., reports from 200 to 500 dead at that place and asks Governor Ralston for provisions, clothing and coffins.

A message received at Phoneton, O., that the reservoir at Hamilton had broken and that 1,000 persons had been drowned.

A telephone message from Dayton to Phoneton that the vast plant of the National Cash Register company at Dayton was on fire.

An unconfirmed but persistent rumor from Marion, Ind., that the Grand reservoir at Salina, O., had gone out, causing an unprecedented flood in the Wabash valley.

Reports May Be Exaggerated.

Latest reports from Delaware, O., said seventy-five to one hundred were dead, but more conservative figures cut these reports in half.

The telegraph companies in numerous instances made unavailing efforts to confirm many of these rumors, but in few cases were able to trace them to a definite source.

Dayton, O., March 26.—Dayton is nothing less than a seething river three miles wide, a mile and a half on each side of Main street, its principal thoroughfare, while it is estimated that from two to five thousand people have perished.

Gloom reigns supreme. The Algonquin hotel is submerged in water up to its third story and above this level in the downtown district office buildings, hotels and business houses are places of refuge.

A school building that was known to have housed no less than 400 school children shortly before the waters rushed in that direction is entirely submerged and as far as can be ascertained all of those little ones met a watery grave.

The property loss will total millions of dollars.

Water Twenty Feet Deep.

The flooded district comprises a practical circle with a radius of a mile and a half and in no place is the water less than six feet deep. In Main street, in the downtown section, the water is twenty feet deep.

The horror of the flooded district is heightened by more than a dozen fires which can be seen, but out of reach of the fire fighters.

Most of the business houses and nearly all of the residences have occupants. Downtown the offices are filled with men, who are unable to get home, and on the upper floors and some of the roofs of the residences are helpless women and children.

Hundreds of houses, substantial buildings in the residence districts.

JAMES M. COX.

Ohio Governor Says Worst Fears May Be Confirmed.

ONE HUNDRED PEOPLE PERISH AT DELAWARE

Seven Feet of Water Flowing Through Ohio Town.

Delaware, O., March 26.—Between seventy-five and 100 persons lost their lives in the swirling waters of the flooded Olentangy river, according to estimates made by the police. More conservative reports place the number at fifty. Between 300 and 400 families are homeless.

The names of only twenty-eight of those believed to be dead have been secured.

Scores of persons are still clinging to the tops of trees, roofs of houses and other available footings.

Life saving crews from Toledo and Cleveland lake stations have been asked for.

Communication with the main section of the city is still unobtainable. The number of deaths on that side of the city is still unknown.

A wall of water seven feet high is rushing through the main section of the city and as the five bridges connecting the east and west main sections have been washed away accurate estimates as to the number of dead and damage done are impossible.

LOSS IN CLEVELAND HEAVY

Several Hundred Thousand Dollars' Damage to Shipping Interests.

Cleveland, March 26.—It was estimated that several hundred thousand dollars damage had been done by the flood to the dock and shipping facilities along the Cuyahoga river here.

Several boats broke loose from the wharves and fearing that large ships might follow suit city officials opened the draw of the Superior viaduct so that it would not be smashed.

GRANTS AUSTRIAN DEMANDS

Montenegro Will Permit Civilians to Leave Scutari.

London, March 26.—Montenegro has conceded all the demands of Austria-Hungary. Montenegrin delegates were sent to Essad Pasha, commander of Scutari, to notify him of the decision to allow the civilian population three days in which to leave the city.

As it is believed Essad Pasha will offer no objections both Austria and Italy are sending steamers with provisions and medical stores, doctors and nurses to assist the people when they march out.

The Montenegrin government also has promised to make a thorough inquiry into the alleged interference by Montenegrins with the Austrian steamer Skodra and has agreed to permit Austrian representatives to take part in the investigation into the death of the priest Palic, who was killed, according to the charges, because he refused to abandon his faith, and into the forcible conversion of Catholics.

Sappho.

Sappho was born in Lesbos about the end of the seventh century B. C. In antiquity the fame of Sappho rivaled that of Homer. She was called "the poetess;" he was called "the poet." She was styled "the tenth muse," "the flower of the graces," "a miracle," "the beautiful." But few fragments of her works are preserved, and these only incidentally by other writers.

Automobile Bandit Gets Life.

Chicago, March 26.—Frank McErlane, twenty years old, one of the automobile bandits who terrorized the city during the winter months, was found guilty of highway robbery by a jury in criminal court. His punishment was fixed at life imprisonment. Three other members of the band previously had been found guilty and sentenced to life terms in prison.

OMAHA CITIZENS COUNTING COST OF TORNADO

At Least Two Hundred Persons Lost Their Lives.

ABOUT FIVE HUNDRED HURT

Extent of Disaster Appears More Appalling Than Those Who Studied the Result Were Willing to Admit. Systematic Relief Bureau is Organized and Assistance Being Given to Those in Need.

Omaha, March 26.—For the first time since the disastrous tornado of Easter Sunday the people of Omaha began to count the cost, both in lives and dollars. When a resume was made it was apparently more appalling than those who had studied the result were willing to admit.

Not less than 200 lives were snuffed out within the vicinity of the city proper and at least fifty persons in surrounding towns lost their lives. Nearly 500 were injured.

The destruction was augmented when nearly three inches of snow fell over the stricken district, making entirely uninhabitable the houses of many who had prepared to retain temporary homes in partially destroyed structures. But the snow lessened the danger of fires starting in the ruins.

So far as money might relieve, conditions were perfect. Tenders of sums aggregating \$1,000,000 are in the hands of city commissioners. These offers came from nearly every section of the country and were made unconditional.

Burial of Victims Begins.

Hearse after hearse wound its way through the wreckage strewn streets bearing victims of the tornado to their last resting place.

In all the Catholic churches masses were said for the dead.

Burial of the dead probably will occupy three or four days.

Every funeral director in the city was busy preparing the bodies for burial, and the coroner still retains in his rooms eighteen bodies, awaiting either identification or the care of relatives.

The greatest work was that of organizing a systematic relief bureau with seven branch stations in the territory covered by the tornado. These stretched over a strip seven miles long. Those in charge of relief stations handed out material assistance to all comers who were able to show they were in need of aid.

The city and state either have made or prepared to make appropriations to meet all emergency cases and relief corps are being organized to care for every case resulting in destitution.

In addition to this newspapers and numerous other institutions have started subscription lists which already bring the total immediately available relief to nearly \$200,000.

Outside Aid Unnecessary.

City Commissioner Ryder stated that despite offers aggregating nearly \$1,000,000 Omaha and Nebraska would be able to care for their own.

He, however, expressed his grateful appreciation for these offers, which, he declared, indicate the great interest the outside world is taking in the city in its distress.

While the destruction of homes in the city was great there was not a single large business institution which suffered a great loss. The storm took its toll entirely from the residential portions of the city and with the exception of small stores, groceries, meat markets and similar shops the loss to business was immaterial.

Sanitary conditions were among the first considered by the city authorities. City Physician Connell undertook the enforcement of regulations which will prevent the possibility of an epidemic. Several hundred animals were among the victims of the storm and orders were given that their carcasses should be removed at once and incinerated. Twenty-five horses were killed in one barn and scores of bodies of other animals were found strewn throughout the storm stricken district.

HAVE MOVING PICTURE EYE

Recruiting Officer Says 80 Per Cent of Applicants Are Afflicted.

Duluth, March 26.—"The moving picture eye," a new thing in ophthalmia, has been discovered here by Quartermaster Jacob Erickson, recruiting officer for the United States navy.

"Eighty per cent of the recent applicants to the recruiting office here," said Quartermaster Erickson, "display eye defects similar to those encountered by men who have been afflicted with the ophthalmia of the desert, or of the snow ring of the extreme north. I attribute this defect of the eyesight in so many young men to the action of motion pictures on the iris of the eye. I find that those applicants who are suffering with the 'film eye' are habitual frequenters of the picture theaters. They cannot pass."

MAY ASK FOR WORLD AID

Ohio Governor Fears Calamity Is Overwhelming One.

Columbus, O., March 26.—"If our worst fears are confirmed it will be necessary for us to call on the outside world for tents and supplies in order to make provision for the worst calamity that has ever befallen this state," said Governor James M. Cox in a telegram he sent to the New York World.

The Dayton companies are on duty in that city, he said.

The Cincinnati companies, presumably, the governor said in his message, would be dispatched to Hamilton and Middletown, which lie in the Miami valley and which sent out distress signals.

Twelve Dead at Hamilton.

Hamilton, O., March 26.—Twelve persons are known to have been drowned, while it is believed more than a score more are dead as a result of the flood of the Miami river that swept Hamilton and is rushing through the streets to a depth of from three to six feet.

RAILWAY SERVICE IS BADLY CRIPPLED

Storms and Floods Practically Paralyze Traffic.

Chicago, March 26.—Train service on the twenty-nine railroads centering in Chicago was seriously impaired as a result of the damage wrought by storms and floods in the Central states.

All trains on the Panhandle branch of the Pennsylvania system, the Monon and the Chesapeake and Ohio roads were annulled and service temporarily abandoned.

The Chicago and Eastern Illinois road ran trains to Terre Haute, but beyond that point its roadbed was washed out and service temporarily abandoned.

The Big Four, like other railroads running through the flood district, was forced to annul its trains south and southwest after making an effort to get passengers through to Indianapolis. Trains which had proceeded as far as Monon, Ind., were forced to give up the attempt and were returned to Chicago.

Several hundred passengers had the experience of traveling at a snail's pace, waiting hours at way stations and then being returned to this city when it became apparent to railroad men that no trains could be got through on account of washouts.

KING'S REMAINS TO ATHENS

All Nations Represented in Solemn Procession in Saloniki.

Saloniki, March 26.—The coffin containing the body of King George of Greece was taken on board the royal yacht Amphitrite, which subsequently left for Athens.

Great pomp and solemnity marked the ceremony. The town was draped with black and huge crowds packed the windows and doors at every point of vantage.

The coffin was borne on a gun carriage. It occupied the center of an imposing procession in which representatives of all nationalities participated.

OCEAN TO OCEAN FUND BIG.

\$100,000 Donation For Highway Puts Total Above \$2,000,000.

With the donation of \$100,000 by an Indianapolis auto manufacturing company the ocean to ocean highway fund recently was brought to a total of much over \$2,000,000.

The interest in the manufacturers' project was never greater than it is at present, and the fact that subscriptions to the fund are coming from the biggest companies in the automobile industry is proof that the idea is considered to be practical and entirely possible of execution.

Since the idea of an ocean to ocean highway was broached last autumn nearly every automobile manufacturer in America has given it close attention. The best financial and business experts have examined it from every standpoint, and no sooner had it received their endorsements than subscriptions began pouring in at a rapid rate.

The fund is in charge of the Ocean to Ocean association, with offices at Indianapolis, Ind.

BIRD FARM FOR CONNECTICUT.

State Imports Three Hundred Breeding Pheasants and Other Game.

The Connecticut fish and game commission has leased fifty acres of land for the establishment of a state game bird farm. The commission has imported 300 breeding birds from England and Germany. An Englishman will be head gamekeeper.

Among the birds whose functions will be to replenish the game preserves of the state are Mongolian, Chinese, English and golden pheasants, Hungarian partridge, quail, guinea fowl, reeves and ringneck. Common domestic hens will be used for hatching the eggs of the imported birds. Connecticut is the fourth state to establish a bird farm, the other states being New York, Massachusetts and Kansas.

PERU UNDER WATER AND MANY DEAD

Awful Flood Conditions in Indiana.

TOTAL NUMBER KILLED

PROBABLY SIX HUNDRED

Damage to Property So Far Is Placed at \$20,000,000.

Indianapolis, March 26.—The first report of the loss of life in Peru was confirmed when Governor Ralston talked over the long distance telephone to Frank Butler, a leading attorney of that city. Mr. Butler said 100 coffins, at least, were needed. Other bodies had been washed away. The survivors are badly in need of food and clothing.

Indianapolis, March 26.—A statewide flood so appalling in its immensity and terrifying in its swiftness in which it came claimed some 200 lives, according to reports, and if messages from Peru are accurate took a toll of 400 or 600 lives. It has made nearly 200,000 homeless and has done property damage of more than \$20,000,000. Helpless from the first rush of waters, which caught the state unprepared, the desperate fight made to save lives and property seemed inconsequential.

In many places it was too late to avert the overflow of streams, but attention was turned to rescuing persons trapped in their homes and heroic work only has kept down the death list.

The White river and several creeks which surround the business district of Indianapolis, ordinary little streams in summer, are raging torrents, sweeping everything in their paths. When the street car service was stopped it trapped thousands in the business district.

Bridges Unsafe and Closed.

Some bridges are unsafe and closed to traffic, and the waters sweeping over the others defy vehicles and pedestrians. Hotels of the city are crowded to their utmost. As many as ten persons are sleeping in a room. The Y. W. C. A. has been thrown open to working girls and school girls who are unable to reach their homes.

The White river levee at Morris street went out, submerging hundreds of homes, adding 2,000 to the 7,000 who were homeless here. The break came at a point where least expected.

Thousands of spectators were watching the river when, with a roar that could be heard blocks, hundreds of tons of dirt in the levee crumbled under the pressure and great walls of murky black water rushed through the opening.

People living in the vicinity rushed from their homes, carrying what property they could hastily tie up in sheets, tablecloths and bedding.

Men, women and children fought through the water toward a nearby bridge which seemed to offer the only safety. It was thought that the break would lessen the pressure higher up, but all hopes of saving that part of the levee has been abandoned and all families were moved from the district.

Many Homes Washed Away.

Many homes were torn to pieces by the rush of the waters and others floated away. No loss of life has been reported, but several persons are said to be missing. In the crowd on the bridge mothers and fathers sought missing children.

The water in some of the streets north of Fall creek, only fifteen blocks from the business district, is sweeping everything before it.

It is so deep that horses are forced to ford the streets. The Capitol avenue bridge, just completed last fall, probably will be dynamited, as it seems to be obstructing the flow of water in Fall creek.

Schools have been ordered closed here until further notice, many large stores have closed and a general suspension of business is the result of the flood.

At Lafayette, the Wabash river, rising at the rate of a foot an hour, has passed all previous high water marks. There a huge bridge went out, carrying two and possibly more persons to their deaths.

The total loss at Lafayette is estimated at \$1,000,000 and thousands are homeless.

Heavy Loss at Rushville.

A half million dollars' damage was done by Flat Rock river at Rushville,

when the stream swept down upon the town, submerging the entire business and parts of the residence districts.

State militia patrolling the streets of Kokomo notified persons whose homes were threatened to move to higher ground. More than 1,500 are homeless, with water and gas plants inundated. The city is without lights or fire protection and the property loss is more than \$1,000,000.

The dike at the water plant in Muncie broke and the employees had to flee for their lives.

Green's branch at Anderson, ordinarily a narrow little stream, is a raging torrent. Thousands have been forced to desert their homes.

Noblesville reports White river there higher than in thirty-three years and it is said two persons were drowned. The Little and Big Blue river broke the levees at Shelbyville and the water has reached within a block of the public square.

Logansport is entirely cut off from telephone and telegraph communication by the Del and Wabash rivers. Two deaths by drowning are reported near there and ten houses have been washed down stream.

Reports from other towns by the dozens are reaching Indianapolis. They are all of one import. The town is flooded.

VAST AREAS UNDER WATER

Floods Prevail From Missouri River to the Alleghenies.

Chicago, March 26.—Swept by wind and rain storms of terrific violence for three days vast areas of the Middle West, from the Missouri river to the Allegheny mountains, are inundated, many persons have been drowned and enormous property losses have been caused by floods, the worst in years.

The maps of Ohio, Indiana and parts of Illinois and Missouri are maps of desolation. Terre Haute, Lafayette and Indianapolis, in Indiana, and Delaware, Dayton, Columbus and Youngstown, in Ohio, present particularly pitiable spectacles. In all of these cities there was some loss of life, according to the most authentic reports available, and in each city the property loss particularly was heavy.

WILSON SILENT ON TARIFF

He Will Make Known Conclusions Before Democratic Caucus.

Washington, March 26.—President Wilson let it be known that he has not yet approved the tariff bill left with him by Representative Oscar W. Underwood, the Democratic leader.

The president indicated to visitors that he had only begun to study the measure, but that before the Democratic caucus met to decide whether they should revise the tariff in a single bill or by separate schedules he would make known his own conclusions.

Former Governor of Georgia Dies.

Atlanta, Ga., March 26.—William J. Northern, former governor of Georgia and prominent in politics for many years, died at his home here. Death was due to complications resulting from a carbuncle. He is survived by his widow and his daughter.

GRAIN AND PROVISION PRICES

South St. Paul Live Stock.

South St. Paul, March 26.—Cattle—Steers, \$5.75@8.75; cows and heifers, \$4.50@7.00; calves, \$4.25@10.00; feeders, \$4.50@7.00. Hogs—\$8.85@9.00. Lambs, \$4.50@8.35; weathers, \$4.50@6.35; ewes, \$2.25@6.00.

Duluth Wheat and Flax.

Duluth, March 26.—Wheat—To arrive on track—No. 1 hard, 85½¢ @ 85¢; No. 1 Northern, 84¼¢ @ 84¢; No. 2 Northern, 81¼¢ @ 82¼¢; May, 86¼¢; July, 87¼¢. Flax—On track and to arrive, \$1.25½; May, \$1.27; July, \$1.28½.

Chicago Grain and Provisions.

Chicago, March 26.—Wheat—May, 89½¢ @ 89½¢; July, 89¢; Sept., 89½¢. Corn—May, 53¢; July, 54¢; Sept., 55½¢. Oats—May, 33¼¢; July, 33¼¢ @ 33½¢; Sept., 33¼¢ @ 33½¢. Pork—May, \$20.55; July, \$20.30. Butter—Creameries, 23@35¢. Eggs—16½¢ @ 17½¢. Poultry—Turkeys, 21¢; chickens, 16¢; springs, 16½¢.

Chicago Live Stock.

Chicago, March 26.—Cattle—Beef, \$7.00@9.10; Texas steers, \$5.50@7.50; Western steers, \$5.80@8.15; cows and heifers, \$3.45@8.00; calves, \$3.50@10.50. Minneapolis Grain.

Minneapolis, March 26.—Wheat—May, 86¼¢; July, 87¢. Cash close on track; No. 1 hard, 86¼¢; No. 1 Northern, 84¼¢ @ 85½¢; to arrive, 84¼¢ @ 84½¢; No. 2 Northern, 82¼¢ @ 83½¢; No. 3 Northern, 80¢ @ 81½¢; No. 3 yellow corn, 47½¢ @ 48¢; No. 4 corn, 45¢ @ 46½¢; No. 3 white oats, 30¢ @ 31¢; to arrive, 30¢; No. 3 oats, 27½¢ @ 28¢; b. r. ry, 39¢ @ 56¢; flax, \$1.24; to arrive, \$1.24½.

NEARLY TWO THOUSAND PERISH IN OHIO AND INDIANA FLOODS

APPALLING DISASTER
AT DAYTON OHIOThousands are Victims of Rushing
Waters three Miles WideThe Property Loss Will Exceed One Hundred
Million Dollars It Is Estimated

BULLETIN

Special to Dispatch:

- Chicago, March 26, (9:25 A. M.)—An unverified report says that 5,000 persons perished in the flood at Dayton, Ohio.
- The dead at Piqua, Ohio are 500.
- The dead at Peru, Indiana, are estimated at 200.
- Delaware, Ohio, has a death list of 75.
- Hundreds of thousands of people are homeless and destitute.

LATER REPORT
NOT SO TERRIBLE

Special to Dispatch:

Chicago, March 26.—Today's report from the flooded sections of Ohio and Indiana somewhat reduce the first estimates of dead. Dayton's casualty list now placed at five hundred to one thousand, with total loss of life in Ohio probably fifteen hundred. Fatalities at Peru, Indiana, first placed at five hundred, now reduced to sixty, total in state not exceeding one hundred. Property damage will aggregate over one hundred millions.

Chicago, March 26.—Reports concerning the appalling nature of the floods in Ohio and Indiana, which in most instances it was impossible to verify, were received from widely scattered sources. The most serious of these were:

An unconfirmed report from Springfield, O., that 5,000 lives had been lost at Dayton and 500 at Piqua.

The mayor of Peru, Ind., reports from 200 to 500 dead at that place and asks Governor Ralston for provisions, clothing and coffins.

A telephone message from Dayton to Phoneton that the vast plant of the National Cash Register company at Dayton was on fire.

An unconfirmed but persistent rumor from Marion, Ind., that the Grand reservoir at Salina, O., had gone out, causing an unprecedented flood in the Wabash valley.

Reports May Be Exaggerated.

Latest reports from Delaware, O., said seventy-five to one hundred were dead, but more conservative figures cut these reports in half.

The telegraph companies in numerous instances made unavailing efforts to confirm many of these rumors, but in few cases were able to trace them to a definite source.

Dayton, O., March 26.—Dayton is nothing less than a seething river three miles wide, a mile and a half on each side of Main street, its principal thoroughfare, while it is estimated that from two to five thousand people have perished.

Gloom reigns supreme. The Algonquin hotel is submerged in water up to its third story and above this level in the downtown district office buildings, hotels and business houses are places of refuge.

A school building that was known to have housed no less than 400 school children shortly before the waters rushed in that direction is entirely submerged and as far as can be ascertained all of those little ones met a watery grave.

The property loss will total millions of dollars.

Water Twenty Feet Deep.

The flooded district comprises a practical circle with a radius of a mile and a half and in no place is the water less than six feet deep. In Main street, in the downtown section, the water is twenty feet deep.

The horror of the flooded district is heightened by more than a dozen fires which can be seen, but out of reach of the fire fighters.

Most of the business houses and nearly all of the residences have occupants. Downtown the offices are filled with men, who are unable to get home, and on the upper floors and some of the roofs of the residences are homeless women and children.

Hundreds of houses, substantial buildings in the residence districts,

many of them with helpless occupants, have been washed away.

The number of drowned cannot be estimated until the flood subsides. St. Elizabeth hospital, with 600 patients, was reported to have been washed away. The buildings were known to be in many feet of water and indications are that the report may prove true.

Famine became an immediate possibility.

Threatened With Starvation.

All of the supply and grocery houses are in the submerged district and it was said there was not enough bread to last the survivors another day.

John H. Patterson, president of the National Cash Register company, who headed the relief work in the south end of the city, sent out an appeal for food supplies and for doctors and medicine. Three thousand homeless were housed in the cash register building.

A fire which started from an explosion in the Meyers Ice Cream company near Wyoming street spread and burned the block on South Park, about a block from Wyoming. Another big fire is reported to have burned a downtown block.

The breaking of the Tarleton reservoir, which supplies the drinking water, left the city without water and physicians declared there was great danger of typhoid in the use of the flood water.

There are no boats in Dayton which can breast the current and those on the outside early gave up attempts to reach the business section.

How many houses have been swept away and how many occupants were carried to their deaths cannot be learned until the water recedes.

At Wyoming street, on the south side, where the National Cash Register company centered its efforts at rescue, many saved their lives by creeping on a telephone cable, a hundred feet above the flood.

Creep Along Cables to Safety.

A fireman crept along the cables, carrying two ropes, to which the flat-bottomed boats were attached. When the flood became so fierce that the boats no longer were able to make way against it men and women crept along the cables to safety.

Trip after trip was made and hundreds of the refugees were taken from the stretch of houses.

Then came the path of the flames starting at Vine and Main streets. It jumped Main street and the houses on the other side were soon aflame.

In the middle of the street were a few frame houses that had been washed from their foundations. These were swirled about for a time and as though to aid in the passing of the section by fire they were cast into the path of the flames.

Thousands of those who were fortunate enough to have escaped the first rush of the waters are being fed on short rations and appeals for help are being sent out by many of the leading men of the city.

Those willing to risk their lives in the attempt to rescue found themselves helpless in face of the water.

Seventy thousand of Dayton's population, it is reported, are homeless. The National Cash Register plant, which is located on a high hill, offers the only haven in the South end.

BILL FOR MINIMUM WAGE

Minnesota House Passes Measure Affecting Women.

St. Paul, March 26.—The Wilson minimum wage bill passed the house by a vote of 61 to 10, without debate. Apparently unaware that the vote was being taken before it was well under way the opposition waited for the result and then began a fight for reconsideration. After a heated debate the reconsideration attempt was defeated.

The proposed minimum wage commission will have the authority to probe working conditions of women and fix a living wage. A separate resolution for a vice commission like the one in Illinois is pending in the house.

JAMES M. COX.

Ohio Governor Says Worst
Fears May Be Confirmed.

ONE HUNDRED PEOPLE
PERISH AT DELAWARESeven Feet of Water Flowing
Through Ohio Town.

Delaware, O., March 26.—Between seventy-five and 100 persons lost their lives in the swirling waters of the flooded Olentangy river, according to estimates made by the police. More conservative reports place the number at fifty. Between 300 and 400 families are homeless.

The names of only twenty-eight of those believed to be dead have been secured.

Scores of persons are still clinging to the tops of trees, roofs of houses and other available footings.

His punishment was fixed at life imprisonment. Three other members of the band previously had been found guilty and sentenced to life terms in prison.

OMAHA CITIZENS
COUNTING COST
OF TORNADOAt Least Two Hundred Persons
Lost Their Lives.

ABOUT FIVE HUNDRED HURT

Extent of Disaster Appears More Appalling Than Those Who Studied the Result Were Willing to Admit. Systematic Relief Bureau Is Organized and Assistance Being Given to Those in Need.

Omaha, March 26.—For the first time since the disastrous tornado of Easter Sunday the people of Omaha began to count the cost, both in lives and dollars. When a resume was made it was apparently more appalling than those who had studied the result were willing to admit.

Not less than 200 lives were snuffed out within the vicinity of the city proper and at least fifty persons in surrounding towns lost their lives. Nearly 500 were injured.

The destruction was augmented when nearly three inches of snow fell over the stricken district, making entirely uninhabitable the houses of many who had prepared to retain temporary homes in partially destroyed structures. But the snow lessened the danger of fires starting in the ruins.

So far as money might relieve, conditions were perfect. Tenders of sums aggregating \$1,000,000 are in the hands of city commissioners. These offers came from nearly every section of the country and were made unconditional.

Burial of Victims Begins.

Hearse after hearse wound its way through the wreckage strewn streets bearing victims of the tornado to their last resting place.

In all the Catholic churches masses were said for the dead.

Burial of the dead probably will occupy three or four days.

Every funeral director in the city was busy preparing the bodies for burial, and the coroner still retains in his rooms eighteen bodies, awaiting either identification or the care of relatives.

The greatest work was that of organizing a systematic relief bureau with seven branch stations in the territory covered by the tornado. These stretched over a strip seven miles long. Those in charge of relief stations handed out material assistance to all comers who were able to show they were in need of aid.

The city and state either have made or prepared to make appropriations to meet all emergency cases and relief corps are being organized to care for every case resulting in destitution.

In addition to this newspapers and numerous other institutions have started subscription lists which already bring the total immediately available relief to nearly \$200,000.

Outside Aid Unnecessary.

City Commissioner Ryder stated that despite offers aggregating nearly \$1,000,000 Omaha and Nebraska would be able to care for their own.

He, however, expressed his grateful appreciation for these offers, which, he declared, indicate the great interest the outside world is taking in the city in its distress.

While the destruction of homes in the city was great there was not a single large business institution which suffered a great loss. The storm took its toll entirely from the residential portions of the city and with the exception of small stores, groceries, meat markets and similar shops the loss to business was immaterial.

Sanitary conditions were among the first considered by the city authorities. City Physician Connell undertook the enforcement of regulations which will prevent the possibility of an epidemic. Several hundred animals were among the victims of the storm and orders were given that their carcasses should be removed at once and incinerated. Twenty-five horses were killed in one barn and scores of bodies of other animals were found strewn throughout the storm stricken district.

HAVE MOVING PICTURE EYE

Recruiting Officer Says 80 Per Cent of Applicants Are Afflicted.

Duluth, March 26.—"The moving picture eye," a new thing in ophthalmia, has been discovered here by Quartermaster Jacob Erickson, recruiting officer for the United States navy.

"Eighty per cent of the recent applicants to the recruiting office here," said Quartermaster Erickson, "display eye defects similar to those encountered by men who have been afflicted with the ophthalmia of the desert, or of the snow ring of the extreme north. I attribute this defect of the eyesight in so many young men to the action of motion pictures on the iris of the eye. I find that those applicants who are suffering with the 'film eye' are habitual frequenters of the picture theaters. They cannot pass."

MAY ASK FOR WORLD AID

Ohio Governor Fears Calamity Is
Overwhelming One.

Columbus, O., March 26.—"If our worst fears are confirmed it will be necessary for us to call on the outside world for tents and supplies in order to make provision for the worst calamity that has ever befallen this state," said Governor James M. Cox in a telegram he sent to the New York World.

The Dayton companies are on duty in that city, he said.

The Cincinnati companies, presumably, the governor said in his message, would be dispatched to Hamilton and Middletown, which lie in the Miami valley and which sent out distress signals.

Twelve Dead at Hamilton.

Hamilton, O., March 26.—Twelve persons are known to have been drowned, while it is believed more than a score more are dead as a result of the flood of the Miami river that swept Hamilton and is rushing through the streets to a depth of from three to six feet.

RAILWAY SERVICE
IS BADLY CRIPPLEDStorms and Floods Practically
Paralyze Traffic.

Chicago, March 26.—Train service on the twenty-nine railroads centering in Chicago was seriously impaired as a result of the damage wrought by storms and floods in the Central states.

All trains on the Panhandle branch of the Pennsylvania system, the Monon and the Chesapeake and Ohio roads were annulled and service temporarily abandoned.

The Chicago and Eastern Illinois road ran trains to Terre Haute, but beyond that point its roadbed was washed out and service temporarily abandoned.

The Big Four, like other railroads running through the flood district, was forced to annul its trains south and southwest, after making an effort to get passengers through to Indianapolis. Trains which had proceeded as far as Monon, Ind., were forced to give up the attempt and were returned to Chicago.

Several hundred passengers had the experience of traveling at a snail's pace, waiting hours at way stations and then being returned to this city when it became apparent to railroad men that no trains could be got through on account of washouts.

KING'S REMAINS TO ATHENS

All Nations Represented in Solemn Procession in Saloniki.

Saloniki, March 26.—The coffin containing the body of King George of Greece was taken on board the royal yacht Amphitrite, which subsequently left for Athens.

Great pomp and solemnity marked the ceremony. The town was draped with black and huge crowds packed the windows and doors at every point of vantage.

The coffin was borne on a gun carriage. It occupied the center of an imposing procession in which representatives of all nationalities participated.

OCEAN TO OCEAN FUND BIG.

\$100,000 Donation For Highway Puts Total Above \$2,000,000.

With the donation of \$100,000 by an Indianapolis auto manufacturing company the ocean to ocean highway fund recently was brought to a total of much over \$2,000,000.

The interest in the manufacturers' project was never greater than it is at present, and the fact that subscriptions to the fund are coming from the biggest companies in the automobile industry is proof that the idea is considered to be practical and entirely possible of execution.

Since the idea of an ocean to ocean highway was broached last autumn nearly every automobile manufacturer in America has given it close attention. The best financial and business experts have examined it from every standpoint, and no sooner had it received their endorsements than subscriptions began pouring in at a rapid rate.

The fund is in charge of the Ocean to Ocean association, with offices at Indianapolis, Ind.

BIRD FARM FOR CONNECTICUT.

State Imports Three Hundred Breeding Pheasants and Other Game.

The Connecticut fish and game commission has leased fifty acres of land for the establishment of a state game bird farm. The commission has imported 300 breeding birds from England and Germany. An Englishman will be head gamekeeper.

Among the birds whose functions will be to replenish the game preserves of the state are Mongolian, Chinese, English and golden pheasants, Hungarian partridge, quail, guinea fowl, reeves and ringnecks. Common domestic hens will be used for hatching the eggs of the imported birds. Connecticut is the fourth state to establish a bird farm, the other states being New York, Massachusetts and Kansas.

PERU UNDER WATER
AND MANY DEAD

Awful Flood Conditions in Indiana.

TOTAL NUMBER KILLED
PROBABLY SIX HUNDREDDamage to Property So Far Is
Placed at \$20,000,000.

Indianapolis, March 26.—The first report of the loss of life in Peru was confirmed when Governor Ralston talked over the long distance telephone to Frank Butler, a leading attorney of that city. Mr. Butler said 100 coffins, at least, were needed. Other bodies had been washed away. The survivors are badly in need of food and clothing.

Indianapolis, March 26.—A statewide flood so appalling in its immensity and terrifying in the swiftness in which it came claimed some 200 lives, according to reports, and if messages from Peru are accurate took a toll of 400 or 600 lives. It has made nearly 200,000 homeless and has done property damage of more than \$20,000,000. Helpless from the first rush of waters, the desperate fight made to save lives and property seemed inconsequential.

In many places it was too late to avert the overflow of streams, but attention was turned to rescuing persons trapped in their homes and heroic work only has kept down the death list.

The White river and several creeks which surround the business district of Indianapolis, ordinary little streams in summer, are raging torrents, sweeping everything in their paths. When the street car service was stopped it trapped thousands in the business district.

Bridges Unsafe and Closed.

Some bridges are unsafe and closed to traffic, and the waters sweeping over the others defy vehicles and pedestrians. Hotels of the city are crowded to their utmost. As many as ten persons are sleeping in a room. The Y. W. C. A. has been thrown open to working girls and school girls who are unable to reach their homes.

The White river levee at Morris street went out, submerging hundreds of homes, adding 2,000 to the 7,000 who were homeless here. The break came at a point where least expected.

Thousands of spectators were watching the river when, with a roar that could be heard blocks, hundreds of tons of dirt in the levee crumbled under the pressure and great walls of murky black water rushed through the opening.

People living in the vicinity rushed from their homes, carrying what property they could hastily tie up in sheets, tablecloths and bedding.

Men, women and children fought through the water toward a nearby bridge which seemed to offer the only safety. It was thought that the break would lessen the pressure higher up, but all hopes of saving that part of the levee has been abandoned and all families were moved from the district.

Many Houses Washed Away.

Many houses were torn to pieces by the rush of the waters and others floated away. No loss of life has been reported, but several persons are said to be missing. In the crowd on the bridge mothers and fathers sought missing children.

The water in some of the streets north of Fall creek only fifteen blocks from the business district, is sweeping everything before it.

It is so deep that horses are forced to ford the streets.

The Capitol avenue bridge, just completed last fall, probably will be dynamited, as it seems to be obstructing the flow of water in Fall creek.

Schools have been ordered closed here until further notice, many large stores have closed and a general suspension of business is the result of the flood.

At Lafayette, the Wabash river, rising at the rate of a foot an hour, has passed all previous high water marks. There a huge bridge went out, carrying two and possibly more persons to their deaths.

The total loss at Lafayette is estimated at \$1,000,000 and thousands are homeless.

Heavy Loss at Rushville.

A half million dollars' damage was done by Flat Rock river at Rushville,

when the stream swept down upon the town, submerging the entire business and parts of the residence districts.

State militia patrolling the streets of Kokomo notified persons whose homes were threatened to move to higher ground. More than 1,500 are homeless, with water and gas plants inundated. The city is without lights or fire protection and the property loss is more than \$1,000,000.

The dike at the water plant in Muncie broke and the employees had to flee for their lives.

Green's branch at Anderson, ordinarily a narrow little stream, is a raging torrent. Thousands have been forced to desert their homes.

Noblesville reports White river there higher than in thirty-three years and it is said two persons were drowned. The Little and Big Blue river broke the levees at Shelbyville and the water has reached within a block of the public square.

Logansport is entirely cut off from telephone and telegraph communication by the Eel and Wabash rivers. Two deaths by drowning are reported near there and ten houses have been washed down stream.

Reports from other towns by the dozens are reaching Indianapolis. They are all of one import. The town is flooded.

VAST AREAS UNDER WATER

Floods Prevail From Missouri River to the Alleghenies.

Chicago, March 26.—Swept by wind and rain storms of terrific violence for three days vast areas of the Middle West, from the Missouri river to the Allegheny mountains, are inundated, many persons have been drowned and enormous property losses have been caused by floods, the worst in years.

The maps of Ohio, Indiana and parts of Illinois and Missouri are maps of desolation. Terre Haute, Lafayette and Indianapolis, in Indiana, and Delaware, Dayton, Columbus and Youngstown, in Ohio, present particularly pitiable spectacles. In all of these cities there was some loss of life, according to the most authentic reports available, and in each city the property loss particularly was heavy.

WILSON SILENT ON TARIFF

He Will Make Known Conclusions Before Democratic Caucus.

Washington, March 26.—President Wilson let it be known that he has not yet approved the tariff bill left with him by Representative Oscar W. Underwood, the Democratic leader. The president indicated to visitors that he had only begun to study the measure, but that before the Democratic caucus met to decide whether they should revise the tariff in a single bill or by separate schedules he would make known his own conclusions.

Former Governor of Georgia Dies.

Atlanta, Ga., March 26.—William J. Northern, former governor of Georgia and prominent in politics for many years, died at his home here. Death was due to complications resulting from a carbuncle. He is survived by his widow and his daughter.

OUR NATIONAL
BANK HAS
A CHARTER
FROM THE
U. S.
GOVERNMENT

A National Bank, before being permitted to do business, must first receive a CHARTER from the United States Government. Before this charter is granted, the government must be satisfied that there are men of both CHARACTER and FINANCIAL RESPONSIBILITY behind a bank. A National Bank must operate under strong restrictions for SAFETY, laid down by the Government at Washington, which includes being regularly examined by representatives of the Treasury Department.

WEDNESDAY, MARCH 26, 1913.

THE WEATHER

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Mampel.

March 25, Maximum 22 above, minimum 5 above.
March 24 there was a snowfall of .5 inches.

The price of the new spring head-wear for ladies has not decreased in proportion to the size.

A Little Falls citizen has caused the arrest of eight saloon keepers charging them with selling liquor to his 19 year old son and another lad of the same age, and two of the eight plead guilty to the charge.

A New York young lady whose income is \$50,000 per year has succeeded in convincing her guardian that she cannot possibly exist on \$12,000 but that she can probably squeeze through on \$20,000 for each twelve months. Many people live a lifetime on that amount and raise a respectable family.

Grand Forks has an ordinance governing public dances that requires all who attend to register and bars girls under 18 years of age after 9 o'clock. The public dance question is one that is under discussion in many cities, and the regulation of them for the good of the rising generation cannot be too strict, a fact that has been overlooked too long.

You can't hand anything to President Wilson, not in the way of free show tickets, free club membership, season tickets to the base ball games or anything that looks like a "comp." He even shaves himself and goes to church where he pleases to avoid the crowd. Washington is much put out at some of the ideas along this line but they have not upset the country at large.

John Burke, the new treasurer of the United States, has got quite a job on his hands in counting all of Uncle Sam's coin and which would take him 300 years to finish if he had to verify the record of the retiring official without help. It takes

Bilious?

from two to five months to count the notes, securities and coin in the treasury and this verification has to be made each time that there is a change in treasury officials.

The Crosby Crucible, the new publication established by C. M. and Marc Atkinson, has been received, and if the first number is an indication of what the succeeding issues of the paper is to be the people of that live mining center are to be congratulated. The paper is 8 pages and 7 columns to the page, all home print, and well filled with live topics and advertising. The local field is well covered and the experience that the publishers bring with them insures the people of that section of Crow Wing county that their interests will be closely guarded and that matters affecting that section will be discussed in a fair and impartial manner. Here's to the success of Crosby's new paper and a hearty welcome to the newspaper family of Crow Wing county.

The new painless bullet recently invented has several redeeming features and with it one can kill or wound without the suffering attended by the ordinary leaden or steel bullet. The inventor has morphia concealed which is released when the bullet comes in contact with solid substance. In warfare it would be "human" as the first shock only would be felt and the wounded man would be put to sleep without pain either to die without knowing what hit him or to recover after his wounds had been attended to while under the influence. In the hunt for big game it would be unnecessary to take the long tramps after a wounded deer or moose, many times resulting in the loss of the animal to the party who shot it but death to the critter later on. With the new method if wounded the deer would simply go to sleep where it stood and the hunter would be sure of his quarry. Modern invention tends to make things easy.

City election is less than a week off and for the first time in the history of the city there is not that state of excitement that usually attends the selection of officers to govern the municipality. Whether this is owing to the fact that there are but two candidates in the field for mayor and the feeling that Mayor Dunn will be returned without strenuous work on the part of his friends or because of the fact that there is not that rivalry between political parties for supremacy has not been explained. As an independent candidate the present mayor comes before the people of Brainerd asking a reelection, and without opposition excepting from the socialist party, and there is no good reason why he should not again be given the honor. His administration has been clean and along progressive lines, so much so that there was no demand for a candidate to oppose him and his name goes on the ballot by petition of his friends rather than by the action of any political organization, a citizens' candidate. Mayor Dunn's first term has been satisfactory and the experience he has gained during his tenure of office will enable him to give the people of Brainerd during his second term as the chief executive an administration of which none will have cause to complain.

LOCAL NEWS NOTES

Store your stoves and household goods with D. M. Clark & Co.—Adv't.

G. W. Lucas went to Fergus Falls this afternoon.

E. E. Collins of Little Falls, is in the city today.

The charter commission meets on Friday evening.

Farm loans for farms by a farmer. R. R. Livingston, Telephone 414-3.—Adv't. 172d-1wtf

Miss Martha Jones, who has been the guest of her sisters, Mesdames Fitzharris, Witham and Lacourse, went to Staples this noon.

Mike Hanson went to Cass Lake today to look after his claim and while he is absent L. A. McCulloch will fill his place at the depot.

F. S. Parker went to St. Paul today to see about his new automobile. The machine was bought from the Rosko Brothers agency and delivery was promised early in April.

The county commissioners went to Crosby today to examine into the school situation in district No. 51. The Crosby Commercial club sent them a special invitation to visit Crosby.

Mrs. John Kohlhaas, 1014 Kingwood street, entertained a number of friends on Tuesday afternoon at "500." A lunch was served by the hostess. All spent a very pleasant afternoon.

For furniture and stove bargains see D. M. Clark's display windows.—Adv't. 224tf

The ladies of the Eastern Star who attended the school of instruction at Staples yesterday returned home this morning. The train was an hour late and therefore caused the ladies some inconvenience.

Esther Bonstead, aged 11, died at a local hospital this morning following an operation. She was the daughter of Mr. and Mrs. Ole Bonstead of Pequot, and the remains will be shipped there for burial.

The lady who took the scarf from muff at Gardner's hall on Monday night is now known and can avoid further trouble by returning the same at once, to the office of Swanson & Swanson, Iron Exchange Bldg.—Adv't. 250

Born to Mr. and Mrs. George Jackson, 1024 Whiteley avenue, North-

east Brainerd, pair of twin girls on March 19. They are doing nicely. Mrs. Jackson has been sick with the grip and on Tuesday was taken to St. Joseph's hospital for treatment. She is reported very sick today.

The remains of Theodore Weise were shipped to Ripon, Wis., on Tuesday's noon train. Undertaker B. C. McNamara has been unable to locate the dead man's overcoat and suit case and for which he inserted an advertisement in Tuesday's Dispatch. Weise is said to have had them in his possession a day or so before he suffered the accidental fall on Laurel street.

The Bohemian club gives its dancing party at Gardner auditorium this evening. The hall will be decorated in purple and white. The music will be furnished by the Blue Ribbon orchestra, dancing commencing at nine o'clock sharp. A grand march will be the first number on a program of 20 numbers. Frappe will be served. It promises to be a most delightful social function.

Schmidt's bottle beer, famous for quality. Order a case. Telephone 164. John Coates Liquor Co.—Adv't.

Mr. and Mrs. Bert Olson, of 414 South Bluff avenue, were pleasantly surprised Tuesday evening on the occasion of their 20th wedding anniversary which also marks the period of their residence in Brainerd. Twenty families were present and spent a most enjoyable evening. The guests presented Mr. and Mrs. Olson with a fine large leather mahogany rocker. An elaborate luncheon was served.

When the stork brought the girl baby to the home of Attorney W. W. Bane, he wired his father-in-law, F. W. Lyons, in Little Falls: "Fine girl baby arrived." The operator taking the message blurred it around while receiving it and it was transcribed in a shape which horrified Mr. Lyons, for when he tore open the envelope and read the telegram, this is what greeted his eyes: "Five girl babies arrived."

Mr. and Mrs. John A. Cochran of this city are alarmed for the safety of relatives living in Omaha. Mrs. Cochran has a sister, Mrs. Charles Cary and three nieces, Mrs. M. N. Cohen and the Misses Carey living in that ill fated city and within the district which was the storm center. Telegrams and letters have failed to bring an answer. Last year Miss Irma Cochran visited her aunt and is thus well acquainted with the section of Omaha that was visited by the destructive cyclone.

To the Ladies of Brainerd—I will be back in your city some time in April taking orders for Spirella corsets. Any one wishing a garment before my return can write me at Thief River Falls, Minn., and I'll do my best to fill orders. I will open up a parlor in Brainerd on my return. Mrs. M. M. Strickling.—Adv't. 246 t6

Now is the time of the year to make money through the Dispatch want ads. Now is the time that people want to buy Real Estate, Horses, Cows, Wagons, Implements, Poultry, Household Goods, etc; Make trades, Secure Help and Positions, Rent Houses and Rooms. Now is the time to get the best results and make money through the Dispatch want ads. People want things and they read the Dispatch want ads to find them, because the Dispatch gives them a larger number of everything to choose from. That's why the Dispatch want ads get results.

The delegation of Sunday school workers which Brainerd sent to Duluth today numbered 40 or more. They gathered at the depot at an early hour and a group photograph was made of them. All the credentials have been taken up and it is expected that fully 85 Brainerd people will be in attendance at the convention, others leaving later for Duluth. The local speakers include Dr. Joseph Nicholson, president of the Crow Wing county Sunday school association and Rev. G. P. Sheridan, pastor of the First congregational church.

OUR NATIONAL
BANK HAS
A CHARTER
FROM THE
U. S.
GOVERNMENT

A National Bank, before being permitted to do business, must first receive a CHARTER from the United States Government. Before this charter is granted, the government must be satisfied that there are men of both CHARACTER and FINANCIAL RESPONSIBILITY behind a bank. A National Bank must operate under strong restrictions for SAFETY, laid down by the Government at Washington, which includes being regularly examined by representatives of the Treasury Department.

WEDNESDAY, MARCH 26, 1913.

THE WEATHER

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Kaupp.

March 25, Maximum 22 above, minimum 5 above.
March 24 there was a snowfall of .5 inches.

The price of the new spring headwear for ladies has not decreased in proportion to the size.

A Little Falls citizen has caused the arrest of eight saloon keepers charging them with selling liquor to his 19 year old son and another lad of the same age, and two of the eight plead guilty to the charge.

A New York young lady whose income is \$50,000 per year has succeeded in convincing her guardian that she cannot possibly exist on \$12,000 but that she can probably squeeze through on \$20,000 for each twelve months. Many people live a lifetime on that amount and raise a respectable family.

Grand Forks has an ordinance governing public dances that requires all who attend to register and bars girls under 18 years of age after 9 o'clock. The public dance question is one that is under discussion in many cities, and the regulation of them for the good of the rising generation cannot be too strict, a fact that has been overlooked too long.

You can't hand anything to President Wilson, not in the way of free show tickets, free club membership, season tickets to the base ball games or anything that looks like a "comp." He even shaves himself and goes to church where he pleases to avoid the crowd. Washington is much put out at some of the ideas along this line but they have not upset the country at large.

John Burke, the new treasurer of the United States, has got quite a job on his hands in counting all of Uncle Sam's coin and which would take him 300 years to finish if he had to verify the record of the retiring official without help. It takes

Bilious?

One of Ayer's Pills at bedtime—just one. Acts on the liver. Gently laxative. Sugar-coated. All vegetable.
Sold for 60 years.
Ask Your Doctor.

from two to five months to count the notes, securities and coin in the treasury and this verification has to be made each time that there is a change in treasury officials.

The Crosby Crucible, the new publication established by C. M. and Marc Atkinson, has been received, and if the first number is an indication of what the succeeding issues of the paper is to be the people of that live mining center are to be congratulated. The paper is 8 pages and 7 columns to the page, all home print, and well filled with live topics and advertising. The local field is well covered and the experience that the publishers bring with them insures the people of that section of Crow Wing county that their interests will be closely guarded and that matters affecting that section will be discussed in a fair and impartial manner. Here's to the success of Crosby's new paper and a hearty welcome to the newspaper family of Crow Wing county.

The new painless bullet recently invented has several redeeming features and with it one can kill or wound without the suffering attended by the ordinary leaden or steel bullet. The inventor has morphia concealed which is released when the bullet comes in contact with solid substance. In warfare it would be "human" as the first shock only would be felt and the wounded man would be put to sleep without pain either to die without knowing what hit him or to recover after his wounds had been attended to while under the influence. In the hunt for big game it would be unnecessary to take the long tramps after a wounded deer or moose, many times resulting in the loss of the animal to the party who shot it but death to the critter later on. With the new method if wounded the deer would simply go to sleep where it stood and the hunter would be sure of his quarry. Modern invention tends to make things easy.

City election is less than a week off and for the first time in the history of the city there is not that state of excitement that usually attends the selection of officers to govern the municipality. Whether this is owing to the fact that there are but two candidates in the field for mayor and the feeling that Mayor Dunn will be returned without strenuous work on the part of his friends or because of the fact that there is not that rivalry between political parties for supremacy has not been explained. As an independent candidate the present mayor comes before the people of Brainerd asking a reelection, and without opposition excepting from the socialist party, and there is no good reason why he should not again be given the honor. His administration has been clean and along progressive lines, so much so that there was no demand for a candidate to oppose him and his name goes on the ballot by petition of his friends rather than by the action of any political organization, a citizens' candidate. Mayor Dunn's first term has been satisfactory and the experience he has gained during his tenure of office will enable him to give the people of Brainerd during his second term as the chief executive an administration of which none will have cause to complain.

LOCAL NEWS NOTES

Store your stoves and household goods with D. M. Clark & Co.—Advt.
G. W. Lucas went to Fergus Falls this afternoon.

E. E. Collins of Little Falls, is in the city today.

The charter commission meets on Friday evening.

J. H. Mark of Wadena, is in the city on business.

Roy Cunningham of Crosby, was in Brainerd today.

Order your wall paper early from D. M. Clark & Co.—Advt 249tf

Mrs. Will Jack of Crow Wing, is sick with the quinsy.

P. D. O'Brien went to the Twin Cities this afternoon.

Murphy's

Fire Marshal Sam Fulerlon returned to St. Paul today. He was in the city on official business.

Mrs. F. S. Parker went to Miles City, Mont., this noon to visit her daughter, Mrs. George E. Brown.

Sample ballots have been printed for the coming city election and are now on file at the city clerk's office.

Miss Mabel Loydahl of Crosby went to Minneapolis today to resume her studies at the university of Minnesota.

Dr. R. A. Beise today received his new six cylinder, five passenger Hudson car purchased from Rosko Brothers.

Miss Irene Peterson, who has been visiting her friend, Miss Mable Smith, has returned to her home in Pine River.

For ice cream phone Turner Bros.—Advt. 247

Charles Danks, who was spending several days with his friend, Harry Eckholm, returned to Duluth last Friday.

The Y. M. C. A. general chorus meets tonight in the parlors of the association. All interested are asked to attend.

Mrs. Gust Woerner, who has been visiting her daughter, Mrs. Leo Code, for a month in the west, returned home Saturday.

George Stein has returned from Minneapolis where he visited his sister, Mr. and Mrs. Fred Eckholm and other relatives.

Awnings put up by D. M. Clark & Co.—Advt. 241-tf

Tom McMahon and James Thomas have returned from the woods where they have been logging 40 miles north of Bemidji.

Front street from Seventh to Sixth streets boasts one of the slipperiest walks in town and makes an admirable skating rink.

Mrs. Edstrom of Aitkin, and friends arrived in the city today and will attend the Bohemian club dance this evening.

Will S. Pitt, of Crosby, was in the city today and got his new car, a six cylinder, seven passenger Hudson from Rosko Brothers.

Mr. and Mrs. Arthur L. Mampel of Gull lake were Brainerd visitors on Tuesday. Mr. Mampel is the caretaker at the Gull lake dam.

Farm loans for farms by a farmer. R. R. Livingston, Telephone 414-3.—Advt. 173-1-17tf

Miss Martha Jones, who has been the guest of her sisters, Mesdames Fitzharris, Wytham and Lacourse, went to Staples this noon.

Mike Hanson went to Cass Lake today to look after his claim and while he is absent L. A. McCulloch will fill his place at the depot.

F. S. Parker went to St. Paul today to see about his new automobile. The machine was bought from the Rosko Brothers agency and delivery was promised early in April.

The county commissioners went to Crosby today to examine into the school situation in district No. 51. The Crosby Commercial club sent them a special invitation to visit Crosby.

Mrs. John Kohlhaas, 1014 Kingwood street, entertained a number of friends on Tuesday afternoon at "500." A lunch was served by the hostess. All spent a very pleasant afternoon.

For furniture and stove bargains see D. M. Clark's display windows.—Advt. 224tf

The ladies of the Eastern Star who attended the school of instruction at Staples yesterday returned home this morning. The train was an hour late and therefore caused the ladies some inconvenience.

Esther Bonstead, aged 11, died at a local hospital this morning following an operation. She was the daughter of Mr. and Mrs. Ole Bonstead of Pequot, and the remains will be shipped there for burial.

The lady who took the scarf from muffs at Gardner's hall on Monday night is now known and can avoid further trouble by returning the same at once, to the office of Swanson & Swanson, Iron Exchange Bldg.—Advt. 250

Born to Mr. and Mrs. George Jackson, 1024 Whiteley avenue, North-

east Brainerd, pair of twin girls on March 19. They are doing nicely. Mrs. Jackson has been sick with the grip and on Tuesday was taken to St. Joseph's hospital for treatment. She is reported very sick today.

The remains of Theodore Weise were shipped to Ripon, Wis., on Tuesday's noon train. Undertaker B. C. McNamara has been unable to locate the dead man's overcoat and suit case and for which he inserted an advertisement in Tuesday's Dispatch. Weise is said to have had them in his possession a day or so before he suffered the accidental fall on Laurel street.

The Bohemian club gives its dancing party at Gardner auditorium this evening. The hall will be decorated in purple and white. The music will be furnished by the Blue Ribbon orchestra, dancing commencing at nine o'clock sharp. A grand march will be the first number on a program of 20 numbers. Frappe will be served. It promises to be a most delightful social function.

Schmidt's bottle beer, famous for quality. Order a case. Telephone 164. John Coates Liquor Co.—Advt.

Mr. and Mrs. Bert Olson, of 414 South Bluff avenue, were pleasantly surprised Tuesday evening on the occasion of their 20th wedding anniversary which also marks the period of their residence in Brainerd. Twenty families were present and spent a most enjoyable evening. The guests presented Mr. and Mrs. Olson with a fine large leather mahogany rocker. An elaborate luncheon was served.

When the stork brought the girl baby to the home of Attorney W. W. Bane, he wired his father-in-law, F. W. Lyons, in Little Falls: "Fine girl baby arrived." The operator taking the message blurred it around while receiving it and it was transcribed in a shape which horrified Mr. Lyons, for when he tore open the envelope and read the telegram, this is what greeted his eyes: "Five girl babies arrived."

Mr. and Mrs. John A. Cochran of this city are alarmed for the safety of relatives living in Omaha. Mrs. Cochran has a sister, Mrs. Charles Cary and three nieces, Mrs. M. N. Conen and the Misses Carey living in that ill fated city and within the district which was the storm center. Telegrams and letters have failed to bring an answer. Last year Miss Irma Cochran visited her aunt and is thus well acquainted with the section of Omaha that was visited by the destructive cyclone.

To the Ladies of Brainerd—I will be back in your city some time in April taking orders for Spirella corsets. Any one wishing a garment before my return can write me at Thief River Falls, Minn., and I'll do my best to fill orders. I will open up a parlor in Brainerd on my return. Mrs. M. M. Strickling.—Advt. 246 t6

INTERVIEWS OF LIGHTING QUESTION

Opinions Gathered at Random in City—More to Follow These Subsequently

MAJORITY FAVOR STONER CO.

His Company Believed to be the Logical One to Furnish Light and Power to City

Henry Spalding: "You ask me what man we wish to have furnish us with electric light? Why, Stoner of course. Let us quit this boy play business and get somebody to give us decent light. The years I was in Crosby and ran the Spalding hotel his voltage was always up to standard and in two years his light flickered just once, and then for only a few minutes. If the council turns down Stoner, then it's about time to wipe Brainerd off the map in company with Little Falls and Aitkin."

James M. Quinn: "The council should consider favorably the Stoner proposition. We have had poor light for three years and can never expect anything better under present conditions. Stoner is a hustler and will bring business into Brainerd. He has been a live wire in getting business for every town that has used his current. If he makes Brainerd his general headquarters it will be a big advantage for this town."

Judge W. H. Mantor: "The best possible solution of the lighting problem in Brainerd is to accept the Stoner proposition."

C. H. Paine: "I think the council should go slow on the matter. Let us see what the plant will do now that the Minneapolis Steel & Machinery Co. have got hold of it. In referring to receivership matters, possibly when the receiver took hold he paid many back bills. An extra unit would help out in Brainerd. No trouble is experienced with gas engines unless they are overloaded."

Mrs. George R. West: "Such light as we get! Take Monday night, for instance. There was the hose company dance and we had the restaurant full of people to serve and the lights go out, put the kitchen out of commission and demoralize the whole business. We ran around with candles, because we had but few lamps. Give us Mr. Stoner's company to furnish light."

Clifford A. Russell: "The Stoner company is the one to furnish Brainerd with light. It's the best thing for Brainerd to have him contract to furnish Brainerd light and power."

C. E. Peabody: "I would like to see Stoner have the contract and have always felt that way. I favored Stoner having the lighting proposition in the first place as he can furnish proper, dependable service."

An Epidemic of Coughing
Is sweeping over the town and young and old are alike affected. Foley's Honey and Tar Compound is a quick safe reliable family medicine for coughs and colds. A. S. Jones, of Lee Pharmacy, Chico, Calif., says: "Foley's Honey and Tar Compound has no equal, and I recommend it as containing no narcotics or other harmful properties." H. P. Dunn.—Advt.

Suggestion Vetoed.
Wife—I don't think you're new suit is fast colored. I'm afraid it will fade dreadfully in the sun.
Husband—H'm! Perhaps I would better go out more at night then.—Fleegende Blatter.

Who would neglect cleansing their face? Some forget the stomach, which needs it badly after the heavy foods of winter. Hollister's Rocky Mountain Tea is just what you need now. Your stomach and bowels take on new life, with one dose. Begin tonight, H. P. Dunn.—Advt.

ADRIANOPEL IS CAPTURED

Special to The Dispatch:

Sofia, March 26—The Bulgarian war office announces the fall of Adrianople today.

EAGLES' BIG CLASS

Wings Attached to 80 by Brainerd Aerie, Followed by Program of Music and Addresses

The largest class of candidates ever initiated by Brainerd Aerie of the Eagles was given its wings Tuesday evening. Eighty fledglings were taught how to fly.

The class included Anton M. Anderson, Ole Anderson, Harry H. Anderson, Carl A. Anderson, Walter R. Ashby, Frank W. Ackerman, E. J. Betzold, F. W. Bechner, Lester B. Bentley, Sam H. Bourquin, Walter A. Baker, Wm. F. Betts, Cornelius Buckley, Lee E. Babcock, Arthur Angstrom, Pat Caulfield, Ole Christoffersen, Adolph Dennis, Jonas E. Erickson, E. Fisher, Charles J. Falkenreck, Bert J. Fetler, Joe Gabiou, Henry W. Greener, John Hill, Anton Ranson, Harry Hanson, Adolph E. Johnson, Victor H. Keller, Walter Kelly, Paul Kalusha, Edward Klein, Charles A. Klein, Joseph A. Kople, R. D. King, Nick K. Lehman, Richard Lund, John A. Linn, E. A. Luck, Andrew P. Lund, James W. McMannis, B. V. McGivern, B. C. McNamara, Carl Mudge, H. P. Muetzel, Clarence A. Callan, I. H. Preston, Adolph Peterson, Fred Potvin, Clyde E. Parker, John Pelkey, Peter Peterson, V. N. Roderick, John P. Russell, George Rappell, Frank E. Russell, Carl G. Rau, Wm. D. Rose, Clifford A. Russell, George O. Russell, Charles Risk, Ed. Stallman, J. F. Saumier, Wm. Stearns, F. D. Sturgeon, John J. Schonecher, Wm. Sinclair, H. Tomles, James H. Thomas, A. A. Weidemann, George H. Weber, John H. Weber, Tom Wallace, John Walburn, J. B. Wilmar, August F. Wendt, H. R. Weideman, Clement Willis, Ira C. White, Joseph Weber.

Following the initiatory ceremonies there was a musical program, speeches, etc. Refreshments were served by Nick Lauer. The F. O. E. orchestra of eight pieces furnished several numbers.

The aerie decided to get up a baseball team, such team however not to interfere with the regular city team.

Thirty new applications were read and another class will be initiated in the last meeting in April.

The visiting delegation included E. P. Bacon, Wm. Coe, E. A. Johnson, Gus A. Zaubdorf, Ed. Klein, Charles Klein, of Pillager; County Commissioner W. B. Jones of Sylvan, and George A. Rice of McGregor.

EASTER PROGRAM SUNDAY

Given March 30 by Members of the 7th St. Norwegian Lutheran Sunday School

An Easter program will be given by the members of the Seventh Street Norwegian Lutheran Sunday school at the church on Sunday evening, March 30 at 7:45 o'clock. The program follows:

DEVELOPMENTS OF WEEK ON RANGE

Barows Mine Clearing Water from its Shaft and Capt. Martin of Virginia in Charge

A BUSY SCENE AT ORELAND

Electric Haulage Very Successful at Armour No. 2 Mine—Other Mining Items

At the Barrows mine of the Virginia Ore Mining company the six sinker pumps have brought the water in the shaft down to a low level and the work of mining will soon be resumed. General Superintendent Hendricks of Virginia has been at the shaft and Capt. Martin has been in charge of the work, coming down a week ago.

The Adams mine of the Cuyler Adams interests and associates at Oreland is the scene of great activity. H. J. Wessinger, formerly a mechanical engineer in the employ of the United States Steel corporation, is superintending the installation of the pumps at the mine. A. E. Buzzo of Eveleth has the contract to put the shaft to ore and also drift a distance. When he cuts the ore, four pumps, being three steam and one electric, will handle the water. Mr. Buzzo does not expect much water after breaking the seal. The Adams mine will certainly ship this season as it is under contract to deliver quite a tonnage. It is reported that the Crow Wing mining company will sink a shaft near Oreland, thus adding to the activity of the town.

The Hale-Bradley Exploration company incorporated by Paul M. Hale, Wilson Bradley and O. J. Carlson has established its headquarters near the postoffice building in Deerwood. They are operating for Minneapolis parties two drills in sections 20 and 26, township 47, range 29.

The air is full of smoke of puffing drills in section 23, township 47, range 29 where four drills of Gaylor & Guith are operating and near by in the same section are five drills of the Crosby Exploration company.

Cuyler Adams also has a drill in this neighborhood, his drill and others being located in section 25, township 47, range 29.

The Armour No. 2 mine north of Ironton is extending its trestles and making ready to increase the size of its stockpile. Electric haulage, surface and underground, is in use. The trip from the shaft to the trestle dump and return is made in three minutes, one man handling the electric motor and one the dump car.

At Riverton in section 17 where the Williams-Carlson interests have their hydraulic plant, a camp of Soo Line surveyors is engaged in running lines west and many believe the road will be extended in a south-westerly direction along the river into Brainerd.

The Iowa-Minnesota Land company has made an extensive land contract with John J. McAuliffe covering tracts in sections 3 and 7, township 138, range 27.

J. J. Robinson has sold to the Cuyuna Improvement company the north half of the southeast quarter of the northwest quarter of section 32, township 47, range 28.

John Stees has sold to Charles V. LaDu of Minneapolis the east half of the southwest and lot 2 and lot 6 of section 24, township 138, range 27 for \$3,967.50.

H. N. Boyson has sold to A. L. Severtson the southeast quarter of the southwest quarter of section 13, township 137, range 26.

Adolph Dreblow has sold to Allen F. Beck and F. H. Perry for \$3,300, the east half of the northwest quarter, the northeast quarter of the southwest quarter, lot 2 of section 24, township 137, range 28.

Patrick Hammel of Duluth has sold to Richard Steedman Patrick an undivided 1-12 interest in the north half of the southwest quarter, the northwest quarter of the southeast quarter of section 30, township 46, range 29.

S. K. Stevenson has sold to H. B. Cline for \$1,400 land in parts of sections 6, 7, 17 and 18, township 138, range 25 and section 8, township 135, range 25.

George Oakes has sold to Henry I. Cohen the southeast quarter of the northeast quarter and lot 2 of section 20, township 135, range 27.

The hydraulic work of the Pittsburgh Steel Ore company will soon resume and additional power will be forthcoming as soon as the big Stoner power dam at the Crow Wing river commences operations. A 9,600 pound sand sucker was recently received and will be added to the equipment.

Capt. John A. Hoskins has taken charge of the Iron Mountain Mining company property, and will proceed to pump out the water in the shaft and later install a three compartment wood shaft.

One needs a good cleansing, purifying tonic-physic after the indoor confinement of winter. Take Hollister's Rocky Mountain Tea, nature's best, no harmful dope. Strong but pure and helpful. H. P. Dunn.—Advt.

Pneumonia Follows a Cold but never follows the use of Foley's Honey and Tar Compound. It stops the cough, heals the sore and inflamed air passages, and strengthens the lungs. The genuine is in a yellow package with bee-hive on carton. Retuse substitutes. H. P. Dunn.—Advt.

"THE PRINCESS BONNIE"

Large Ticket Sale for This Attraction at Brainerd Opera House March 28

Ticket holders for the high school Glee club opera on Friday evening are again reminded to get their tickets reserved before 2 p. m. on Friday in order that no purchaser of a ticket may find it too late to secure a reserved seat. The tickets on sale by pupils will not exceed the number of reserved seat available on the plat if they are presented before the hour above mentioned but beyond that time it will be impracticable to hold reservations on tickets not presented at the drug store for exchange receipt checks.

The participants in the opera consisting of more than 100 students of the high school are rehearsing every evening to insure a first class presentation. Appropriate scenery has been secured from St. Paul which will give a beautiful background for the opera. The high school orchestra assisted by Prof. Wm. Graham and other local musicians will furnish the accompaniments.

The ticket sale thus far has exceeded anticipations and if good seats are desired one should be on hand to reserve them at Dunn's drug store on Thursday at 10 o'clock. The proceeds of the entertainment after expenses are met will be used for an appropriate memorial by the high school Glee club and will be something of permanent utility to the local schools.

WILL ADDRESS FARMERS' UNION

W. A. McKerrow and J. E. Neill of Agricultural Extension to Speak in Brainerd at

COMMERCIAL CLUB MARCH 29

McKerrow is a Livestock Expert and Neill is a Corn Specialist of Prominence

A special meeting of the Farmers' Union will be held Saturday afternoon, March 29, at two o'clock at the Commercial club rooms and all farmers whether members of the union or not and all others interested are asked to be present to hear the two speakers who will address the assemblage.

W. A. McKerrow and J. E. Neill are from the agricultural extension and farmers' institutes of the university of Minnesota. Mr. McKerrow will handle livestock subjects and Mr. Neill will talk on the subject of corn. They will stop off at Brainerd, while on their way to Aitkin where they are booked for a week's lectures.

It is hoped that a large attendance will greet the lecturers. They are both good speakers and authorities in their lines and their addresses will be of great benefit to all who are fortunate enough to hear them.

Causes Much Disease Advice about Stomach Troubles and how to relieve them.

Don't neglect indigestion, for it may lead to all sorts of ills and complications. An eminent physician once said that ninety-five per cent of all ills have their origin in a disordered stomach.

Our experience with Rexall Dyspepsia Tablets leads us to believe them to be one of the most dependable remedies known for indigestion and chronic dyspepsia. Their ingredients are soothing to the inflamed membrane of the stomach. Rich in Pepsin and Bismuth, two of the greatest digestive aids known to medicine, the relief they afford is very prompt. Used persistently and regularly for a short time, they tend to relieve pains caused by stomach disorders.

Rexall Dyspepsia Tablets help insure hearty appetite, aid digestion, and promote nutrition. As evidence of our faith in them, we ask you to try them at our risk. If they fail to give you entire satisfaction, we will return the money you paid us without question or formality. Three sizes, 25 cents, 50 cents and \$1.00. You can buy Rexall Dyspepsia Tablets in this community only at our store:

MAYOR OF COLORADO SPRINGS

Describes Success Attained by His City under the Commission Form of Government

The following is an excerpt from a letter written to a friend in this city by the mayor of Colorado Springs, Colorado, in response to an inquiry as to the success of that city under the commission plan.

Colorado Springs with a population of 29,078 is often referred to as one having a very progressive form of commission government charter. These facts prove interesting just now when Brainerd's charter commission is preparing a new charter for this city. The mayor writes:

"I was elected mayor of Colorado Springs in July, 1909, and my term of office will expire on May 1st, 1913, so that I have been mayor under the present charter, termed a commission form of government in this city, for practically four years.

Under the present form of government we feel that we have made many valuable improvements of a public nature; we have reduced the bonded debt up to date of \$309,000, and have appropriated and plan to pay \$47,000 additional on September 1st 1913, making a reduction of the bonded debt of \$356,000 in four years and this with a less tax levy than our predecessors.

"We have done quite a lot of improvements on the water system, have laid over twenty miles of new water mains, as well as the enlargement of the reservoirs in the mountains."

Wright's Confectionery

INTERVIEWS OF LIGHTING QUESTION

Opinions Gathered at Random in City—More to Follow These Subsequently

MAJORITY FAVOR STONER CO.

His Company Believed to be the Logical One to Furnish Light and Power to City

Henry Spalding: "You ask me what man we wish to have furnish us with electric light? Why, Stoner of course. Let us quit this boy play business and get somebody to give us decent light. The years I was in Crosby and ran the Spalding hotel his voltage was always up to standard and in two years his light flickered just once, and then for only a few minutes. If the council turns down Stoner, then it's about time to wipe Brainerd off the map in company with Little Falls and Aitkin."

James M. Quinn: "The council should consider favorably the Stoner proposition. We have had poor light for three years and can never expect anything better under present conditions. Stoner is a hustler and will bring business into Brainerd. He has been a live wire in getting business for every town that has used his current. If he makes Brainerd his general headquarters it will be a big advantage for this town."

Judge W. H. Mantor: "The best possible solution of the lighting problem in Brainerd is to accept the Stoner proposition."

C. H. Paine: "I think the council should go slow on the matter. Let us see what the plant will do now that the Minneapolis Steel & Machinery Co. have got hold of it. In referring to receivership matters, possibly when the receiver took hold he paid many back bills. An extra unit would help out in Brainerd. No trouble is experienced with gas engines unless they are overloaded."

Mrs. George R. West: "Such light as we get! Take Monday night, for instance. There was the hose company dance and we had the restaurant full of people to serve and the lights go out, put the kitchen out of commission and demoralize the whole business. We ran around with candles, because we had but few lamps. Give us Mr. Stoner's company to furnish light."

Clifford A. Russell: "The Stoner company is the one to furnish Brainerd with light. It's the best thing for Brainerd to have him contract to furnish Brainerd light and power."

C. C. Peabody: "I would like to see Stoner have the contract and have always felt that way. I favored Stoner having the lighting proposition in the first place as he can furnish proper, dependable service."

An Epidemic of Coughing

Is sweeping over the town and young and old are alike affected. Foley's Honey and Tar Compound is a quick safe reliable family medicine for coughs and colds. A. S. Jones, of Lee Pharmacy, Chico, Calif., says: "Foley's Honey and Tar Compound has no equal, and I recommend it as containing no narcotics or other harmful properties." H. P. Dunn.—Adv.

Suggestion Vetoed.

Wife—I don't think you're new suit is fast colored. I'm afraid it will fade dreadfully in the sun. Husband—H'm! Perhaps I would better go out more at night then.—Flingende Blatter.

Who would neglect cleansing their face? Some forget the stomach, which needs it badly after the heavy foods of winter. Hollister's Rocky Mountain Tea is just what you need now. Your stomach and bowels take on new life, with one dose. Begin tonight, H. P. Dunn.—Adv.

ADRIANOPLE IS CAPTURED

Special to The Dispatch:

Sofia, March 26—The Bulgarian war office announces the fall of Adrianople today.

EAGLES' BIG CLASS

Wings Attached to 80 by Brainerd Aerie, Followed by Program of Music and Addresses

The largest class of candidates ever initiated by Brainerd Aerie of the Eagles was given its wings Tuesday evening. Eighty fledglings were taught how to fly.

The class included Anton M. Anderson, Ole Anderson, Harry H. Anderson, Carl A. Anderson, Walter R. Ashby, Frank W. Ackerman, E. J. Betzold, F. W. Bechner, Lester B. Bentley, Sam H. Bourquin, Walter A. Baker, Wm. F. Betts, Cornelius Buckley, Lee E. Babcock, Arthur Antrim, Pat Caulfield, Ole Christopher, Adolph Dennis, Jonas E. Erickson, E. Fisher, Charles J. Falkenreck, Bert J. Feltner, Joe Gablou, Henry W. Greener, John Hill, Anton Hanson, Harry Hanson, Adolph E. Johnson, Victor H. Keller, Walter Kelly, Paul Kalusha, Edward Klein, Charles A. Klein, Joseph A. Kople, R. D. King, Nick K. Lehman, Richard Lund, John A. Linn, E. A. Luck, Andrew P. Lund, James W. McMannis, B. V. McGivern, B. C. McNamara, Carl Mudge, H. P. Muetzel, Clarence A. Callan, L. H. Preston, Adolph Peterson, Fred Potvin, Clyde E. Parker, John Pelkey, Peter Peterson, V. N. Roderick, John P. Russell, George Rappell, Frank E. Russell, Carl G. Rau, Wm. D. Rose, Clifford A. Russell, George O. Russell, Charles Risk, Ed. Stallman, J. F. Saumier, Wm. Stearns, F. D. Sturgeon, John J. Schonecher, Wm. Sinclair, H. Tomie, James H. Thomas, A. A. Weidemann, George H. Weber, John H. Weber, Tom Wallace, John Walburn, J. B. Wilmar, August F. Wendt, H. R. Weideman, Clement Willis, Ira C. White, Joseph Weber.

Following the initiatory ceremonies there was a musical program, speeches, etc. Refreshments were served by Nick Laner. The F. O. E. orchestra of eight pieces furnished several numbers.

The aerie decided to get up a baseball team, such team however not to interfere with the regular city team.

Thirty new applications were read and another class will be initiated in the last meeting in April.

The visiting delegation included E. P. Bacon, Wm. Coe, E. A. Johnson, Gus A. Zallbord, Ed. Klein, Charles Klein of Pillager; County Commissioner W. B. Jones of Sylvan, and George A. Rice of McGregor.

EASTER PROGRAM SUNDAY

Given March 30 by Members of the 7th St. Norwegian Lutheran Sunday School

An Easter program will be given by the members of the Seventh Street Norwegian Lutheran Sunday school at the church on Sunday evening, March 30 at 7:45 o'clock. The program follows:

Song by congregation.
Prayer and scripture.
Norwegian song by Sunday school.
"Easter Greetings" Martin Rosenberg
Recitation Julia Bragger
Selection Crescent Orchestra
Dialogue, "Easter Joybells" Five boys
Song by the school, "This is the Day of His Triumph"
"Ministering Spirits" Alfred Dillan
Song, "Easter Bells" Five girls
"Easter Story" Mildred Eckholm
Piano duet
Ellen Dillan and Gerda Peterson
Dialogue, "Shining for Jesus"
Seven girls
Recitation Benjamin Zakariasen
Song by the school, "Beautiful Easter Story"
Norwegian dialogue
Seven boys and girls
Song, "See This Lily" Five boys
"Beautiful Story" Irene Lubby
Piano solo Henry Elvig
Dialogue, "Singing Time" Eight girls
Song by Bible Class
Dialogue
Walter Engbretson and Hilding Elvig
Recitation, "Elsie Schwabe"
Song by the school, "New Gladness is Crowning"
Recitation Arthur Anderson
Song by the school, "Lilies Fair"
Dialogue Three girls
Recitation, "Easter Anthem"
Winifred Allen
Dialogue, "Easter" Six boys
Piano solo Thelma Reis
Norwegian dialogue
Paulus Anderson, Earl Engbretson
Recitation Hjalmar Zakariasen.
Recitation Esther Erickson
Collection
Selection by the orchestra
Song by the audience
Lord's prayer in concert.

DEVELOPMENTS OF WEEK ON RANGE

Barows Mine Clearing Water from its Shaft and Capt. Martin of Virginia in Charge

A BUSY SCENE AT ORELAND

Electric Haulage Very Successful at Armour No. 2 Mine—Other Mining Items

At the Barrows mine of the Virginia Ore Mining company the six sinker pumps have brought the water in the shaft down to a low level and the work of mining will soon be resumed. General Superintendent Hendricks of Virginia has been at the shaft and Capt. Martin has been in charge of the work, coming down a week ago.

The Adams mine of the Cuyler Adams interests and associates at Oreland is the scene of great activity. H. J. Wessinger, formerly a mechanical engineer in the employ of the United States Steel corporation, is superintending the installation of the pumps at the mine. A. E. Buzzo of Eveleth has the contract to put the shaft to ore and also drift a distance. When he cuts the ore, four pumps, being three steam and one electric, will handle the water. Mr. Buzzo does not expect much water after breaking the seal. The Adams mine will certainly ship this season as it is under contract to deliver quite a tonnage. It is reported that the Crow Wing mining company will sink a shaft near Oreland, thus adding to the activity of the town.

The Hale-Bradley Exploration company incorporated by Paul M. Hale, Wilson Bradley and O. J. Carlson has established its headquarters near the postoffice building in Deerwood. They are operating for Minneapolis parties two drills in sections 29 and 26, township 47, range 29.

The air is full of smoke of puffing drills in section 23, township 47, range 29 where four drills of Gaylord & Guith are operating and near by in the same section are five drills of the Crosby Exploration company. Cuyler Adams also has a drill in this neighborhood, his drill and others being located in section 25, township 47, range 29.

The Armour No. 2 mine north of Ironton is extending its trestles and making ready to increase the size of its stockpile. Electric haulage, surface and underground, is in use. The trip from the shaft to the trestle dump and return is made in three minutes, one man handling the electric motor and one the dump car.

At Riverton in section 17 where the Williams-Carlson interests have their hydraulic plant, a camp of Soo Line surveyors is engaged in running lines west and many believe the road will be extended in a southwesterly direction along the river into Brainerd.

The Iowa-Minnesota Land company has made an extensive land contract with John J. McAuliffe covering tracts in sections 3 and 7, township 138, range 27.

J. J. Robinson has sold to the Cuyuna Improvement company the north half of the southeast quarter of the northwest quarter of section 32, township 47, range 28.

John Stees has sold to Charles W. LaDu of Minneapolis the east half of the southwest and lot 2 and lot 6 of section 24, township 138, range 27 for \$3,967.50.

H. N. Boyson has sold to A. L. Severson the southeast quarter of the southwest quarter of section 13, township 137, range 26.

Adolph Dreblow has sold to Allen F. Beck and F. H. Perry for \$3,300, the east half of the northwest quarter, the northeast quarter of the southwest quarter, lot 2 of section 24, township 137, range 28.

Patrick Hammel of Duluth has sold to Richard Steedman Patrick an undivided 1-12 interest in the north half of the southwest quarter, the northwest quarter of the southeast quarter of section 30, township 46, range 29.

S. K. Stevenson has sold to H. B. Cline for \$1,400 land in parts of sections 6, 7, 17 and 18, township 138, range 25 and section 8, township 135, range 25.

George Oakes has sold to Henry I. Cohen the southeast quarter of the northeast quarter and lot 2 of section 20, township 135, range 27.

The hydraulic work of the Pittsburgh Steel Ore company will soon resume and additional power will be forthcoming as soon as the big Stoner power dam at the Crow Wing river commences operations. A 9,600 pound sand sucker was recently received and will be added to the equipment.

Capt. John A. Hoskins has taken charge of the Iron Mountain Mining company property, and will proceed to pump out the water in the shaft and later install a three compartment wood shaft.

One needs a good cleansing, purifying tonic-physic after the indoor confinement of winter. Take Hollister's Rocky Mountain Tea, nature's best, no harmful dose. Strong but pure and helpful. H. P. Dunn.—Adv.

Pneumonia Follows a Cold but never follows the use of Foley's Honey and Tar Compound. It stops the cough, heals the sore and inflamed air passages, and strengthens the lungs. The genuine is in a yellow package with beehive on carton. Refuse substitutes. H. P. Dunn.—Adv.

"THE PRINCESS BONNIE"

Large Ticket Sale for This Attraction at Brainerd Opera House March 28

MAYOR OF COLORADO SPRINGS

Describes Success Attained by His City under the Commission Form of Government

The following is an excerpt from a letter written to a friend in this city by the mayor of Colorado Springs, Colorado, in response to an inquiry as to the success of that city under the commission plan.

Colorado Springs with a population of 29,078 is often referred to as one having a very progressive form of commission government charter. These facts prove interesting just now when Brainerd's charter commission is preparing a new charter for this city. The mayor writes:

"I was elected mayor of Colorado Springs in July, 1909, and my term of office will expire on May 1st, 1913, so that I have been mayor under the present charter, termed a commission form of government in this city, for practically four years.

"Under the present form of government we feel that we have made many valuable improvements of a public nature; we have reduced the bonded debt up to date of \$309,000, and have appropriated and plan to pay \$47,000 additional on September 1st 1913, making a reduction of the bonded debt of \$356,000 in four years and this with a less tax levy than our predecessors.

"We have done quite a lot of improvements on the water system, have laid over twenty miles of new water mains, as well as the enlargement of the reservoirs in the mountains."

A Message to Railroad Men

E. S. Bacon, 11 East St., Bath, Me., sends out this warning to railroaders everywhere. "My work as conductor caused a chronic inflammation of the kidneys and I was miserable and all played out. From the day I began taking Foley Kidney Pills I began to gain my strength, and I am better now than I have been for twenty years." Try them. H. P. Dunn.—Adv.

What's the Use?

"It did Jack no good to marry his stenographer, for she continued the habit of the office in their home." "How so?" "When he starts to dictate she takes him down."—London Tit-Bits.

Many a Suffering Woman

Drags herself painfully through her daily tasks suffering from headache, headache, nervousness, and loss of sleep, not knowing her ills are due to kidney and bladder troubles. Foley Kidney Pills give quick relief from pain and misery, a prompt return to health and strength. No woman who suffers can afford to overlook Foley Kidney Pills. H. P. Dunn.—Adv.

DELICIOUS "SYRUP OF FIGS" FOR A BAD LIVER OR SLUGGISH BOWELS.

This Gentle, Effective Fruit Laxative Thoroughly Cleans Your Stomach, Liver and 30 Feet of Bowels of Sour Bile, Poisons, Gases and Clogged-up Waste

A harmless cure for sick headache, for biliousness, for a sour, gassy, disordered stomach, for constipation, indigestion, coated tongue, sallowness, pimples—take delicious Syrup of Figs. For the cause of all these troubles lies in a torpid liver and sluggish condition of your thirty feet of bowels.

A teaspoonful of Syrup of Figs tonight means all poisonous waste matter, the undigested, fermenting food and sour bile, gently moved on and out of your system by morning, without griping, nausea or weakness. It means a cheery day to-morrow—many bright days thereafter.

Please don't think of gentle, effective Syrup of Figs as a physic. Don't think you are drugging yourself, for delicious figs, senna and aromatics can not injure anyone.

This remarkable fruit preparation

is a wonderful stomach, liver and bowel cleanser, regulator and tonic, the safest and most positive ever devised.

The day of violent purgatives, such as calomel, pills, salts and castor oil is past. They were all wrong. You got relief, but at what a cost! They acted by flooding the bowels with fluids, but these fluids were digestive juices. Syrup of Figs embody only harmless laxatives, which act in a natural way. It does what right food would do—what eating lots of fruit and what plenty of exercise will do for the liver, stomach and bowels.

Be sure you get the old reliable and genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Company. Hand back with scorn, any Fig Syrup imitation recommended as "just as good."

FREE HAND GIVEN TO THE CABINET

Wilson Allows Members Wide Latitude.

THEY CHOOSE ASSISTANTS.

President Commends Several on Selections They Made—Work of Chief Executive Has Been Trebled—White House a Dumping Ground—Many Ignore Department Heads.

By ARTHUR W. DUNN.

Washington, March 26.—[Special.]—President Wilson has allowed his cabinet officers a very free hand in the choice of their assistants. He has made no appointments without first consulting the cabinet member, and whenever a cabinet officer has indicated his desire for the selection of a particular man for an assistant the president has acquiesced unless there was some very good reason why the appointment should not be made. In many instances he has commended the cabinet members for their selections.

Just how far the president will carry the idea of having the cabinet members attend to the business of the country is not yet known, but it would save him very much trouble if he could get back to the methods of the old days when the cabinet members ran their departments without aid save on the more important questions.

White House a Hopper.

For several administrations the White House has been a hopper into which has been dumped all the departmental business. The clerical force has been largely increased and the work of the president and his secretaries has been trebled, all because the tendency has been toward centralization and the people want to have the president attend to everything.

Another reason was because nearly all the former presidents wanted to know about everything that was going on; they wanted to be consulted about even the smallest things. But it has also been on account of the desire of the senators and members of the house to carry everything to the president and ignore the cabinet officers, more particularly if they think they can "work" the president and couldn't do likewise with the cabinet member.

Conservation Reform.

An effort may be made to reform the conservation movement or to "conserve the conservationists," as one man put it. Many western men assert that there has been too much impractical work done in conservation; that too much land has been reserved; that people are deprived of an opportunity to use actual necessities in the west; that a better method can be devised which will save the resources and also utilize them.

Every effort in the direction of changing the present conservation policy has been blocked by such men as Gifford Pinchot and his followers, but it is possible that the new Democratic blood from the west in both houses of congress, coupled with the fact that this is a Democratic administration, may make it possible to bring about changes in the conduct of forests and other resources of the west. At one time it was thought a man from one of the states most affected would become secretary of the interior where the conservation interests are grouped, but the suggestion raised strong protests by the conservation promoters.

Wyoming Not Lost.

Because the political complexion of the senate has changed does not mean that Wyoming has become lost in the shuffle. Senator Warren will continue to be an important factor. He is the ranking minority member of appropriations, agriculture and rules and second on military affairs, public buildings and irrigation, besides being chairman of one of the best minority committees. Warren will be a conferee on the most important appropriation bills when they are considered.

Senator Clark, the other Wyoming senator, is the ranking minority member on judiciary and conservation, second on public lands, a member of the finance committee and also had a choice of chairmanships of the minority.

Not to Be Retired.

Senator Bacon is not to be retired because he was not made president pro tem. of the senate. In the short special session of the senate he showed that he intended to take an active part in everything that came before the senate. It is quite likely that as chairman of foreign relations he may have a leading role in the senate, as our foreign problems are such as to cause a great deal of anxiety.

Tenacious to the Last.

It was amusing to see senators of the United States struggling and tenacious over the matter of committee assignments, even on committees which had never met and never would meet and which were created simply for the purpose of giving some senator a chairmanship.

The relative rank and the chairmanship of an "expenditures" committee held the attention of the senate for several moments, although it is known the committee will not meet and never has bills referred to it. In the matter of committees the average senator wants all he can get.

Curious Family Tree.

Among the curiosities of the New palace, Potsdam, Germany, is a genealogical tree showing the name of King David engrossed at the root of it with that of the kaiser at the top, the descent being traced through his mother's family. According to this genealogy, the reigning house of Great Britain is descended from David through the eldest daughter of Zedekiah, who fled to Ireland in charge of Prophet Jeremiah and married Heremon, king of Ulster.

RAILROAD NEWS

Aitkin is in line for a new \$30,000 depot.

Superintendent of Bridges and Buildings Macfarlane of Duluth, was in the city Saturday.

Jerry M. Glunt, yardmaster, prominent in G. A. R. circles, will attend the Gettysburg anniversary reunion of his regiment.

It is rumored that the head of the New York, New Haven & Hartford railway, Charles S. Mellen is soon to retire and will be succeeded by Howard Elliott, president of the Northern Pacific railway.

Experts of the Northern Pacific railway are examining Aitkin and vicinity with a view of establishing a demonstration farm to aid in the growth and development of agriculture in the territory served by its line.

"Efficient men who use their heads"—these are the men who will be the history-makers of the Northern Pacific railroad, "is the slogan adopted by the railroad in circulars sent out to all employees last week, in connection with the "safety first" movement, which at present, says the Duluth Herald, is one of the leading projects in the field of railway operation.

Roadmaster T. J. Tyler is at Seattle, Wash., and along the line of the Northern Pacific in the west and considering the proposition of becoming general roadmaster of this western division under Superintendent Blanchard. Mr. Tyler has made a record in his work as roadmaster of the Lake Superior division and not so long ago refused a promotion to the third district.

Everyone not owning a piano that sends in an answer, shall receive a prize. Winners will be notified by mail. Only one prize in a family. All answers will be submitted to three judges, (disinterested business men.) Each judge will be allowed one vote. The piano will be awarded to the person whose answer receives a majority of the votes. Judges must vote by ballot. Neatness of answer will be taken in consideration. Decision of judges final. Professional artists, draftsmen or designers answers will not be accepted. Peters Music Co., has put on this contest to advertise the world's renowned Kimball Piano, the Piano used and endorsed by the world's leading musicians because of its unexcelled tone quality, action and durability.

Write your name and address plainly on your answer and mail or bring same to us.

Contest closes at 12:00 o'clock noon, Monday, March 31, 1913.
